SLS Solutions Out-Brief

Issue:	Proposed Courses of Action with Lead Element
Critical Infrastructure: There is no doctrine to address the degradation of the local, state, and/or Federal government capacity following a catastrophic event. Example: The prioritization and restoration of critical infrastructure, including overlapping or currently non-existent authorities.	1) Determine alternative/innovative solutions (use of emergency variances, resource prepositioning, etc.) for infrastructure by agencies and sectors. Lead: ESFLG and NEMA 2) Early inclusion of private sector in the planning and response phases. Lead: FEMA and ESFs 3) Establish a common operating picture. With CIKR overlays. Provides basis for modeling. Lead: DHS-IP and ESFLG 4) Government incentives for preparedness. Lead: FEMA Intergovernmental Affairs, Mitigation, and NP 5) Implement rationing and stress conservation or alternate use of resources. Lead: FEMA Response 6) Interstate Mutual Assistance Agreements. Lead: NEMA/FEMA Response
